

FULL BATTERY Powerseat complete with seat, long stem, charger and 1 x battery

PWRS-B1

The Battery PowerSeat unveils new possibilities in enclosed and confined space rope access and rescue. Quietly delivers a powerful 300 kilogram (661 lb) hoist capability with controlled sensitivity to perform the most delicate rescues, or precise maneuvering of materials and components for installation or maintenance. Developed specifically for rope access and winching applications, it provides a lightweight, prolonged usage, powered ascender and utility winch. Operates comfortably in both outdoor and indoor environments where engine emissions are restricted. It provides a level of operator safety and comfort that directly increases productivity and efficiency. Suitable for blade cleaning, confined space and indoor rope access and rescue applications.
