Hansen Sea Wind Drysuit (Hi-Viz Yellow, Size XS-XXL)

Pre-shaped construction with 100% freedom of movement. Durable fabrics with highly breathable properties from GoreTex. Made as a shell product to be lightweight. Pit-zips (underarm-zips) to enhance ventilation in controlled situations. Waterproof zip in collar for easy donning. Roomy pockets constructed with mesh to enhance the breathable properties of the fabric and placed where they are of no hindrance to normal movement. Gloves and hood in neoprene, lifting becket and pen-pocket. For easy integration with safety equipment as harnesses and SeaLion lifejackets, the suit is 'clean' on both chest and back. The suit fulfils the requirements of the IMO/SOLAS LSA code, as a one hour immersion/quick donning suit without internal buoyancy.
